

Where can I see
my health data?

Who can view
my data in
MyKanta?

Learn more about MyKanta!

kanta.fi/en/young-people

MyKanta is an online service where you can find all your health information.

Guardians can view information about minors in MyKanta if the minor is not yet able to decide on their treatment themselves. In some situations, you can influence what information will be shown to your guardian. This is always discussed at appointments with doctors and nurses.
